

Parente and Prescott Update

Here are some of the key charts in the Parente/Prescott paper, updated with data from 1960 - 2000. Results differ somewhat since I could only get 92 countries (not 102 countries).

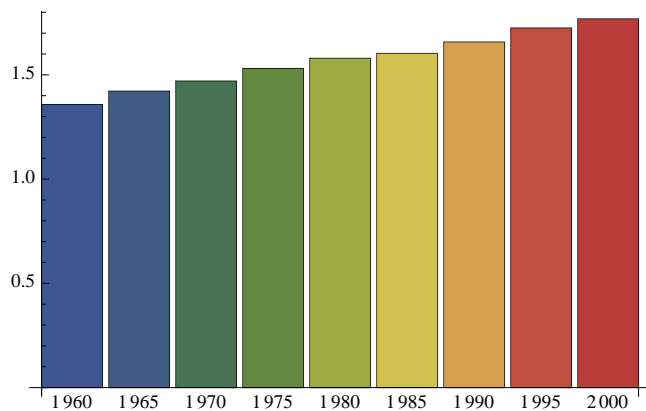

This is the relative per-capita GDP in current world dollars (Country j relative to the United States). All data is in log to the base 2.

CHART 1:

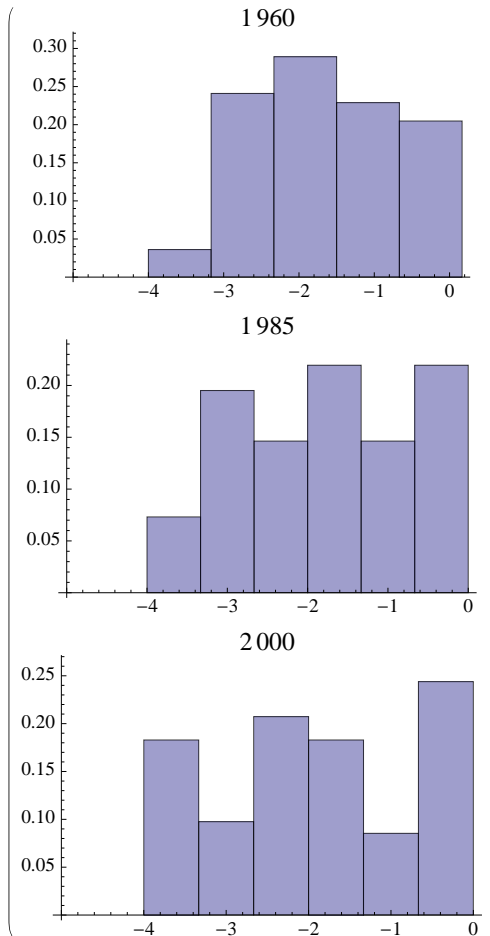

The following is the Standard Deviation of R of the sample of 92 countries.

CHART 2:

The following is the distribution of R in three different years: 1960, 1985, and 2000.

CHART 6:

The following are y over time for five richest, poorest, and middle:

CHART 8:
